

G.P.S. Grow Pray Study Guide

MAY 31, 2020

Points to ponder...

Where are you experiencing darkness in your life? Where is your world crumbling?

On Ascension, we learn a lesson about looking up to remember where Christ is – seated at the right hand of God. How does looking up change your perspective on your current circumstances?

On Pentecost, we are still encouraged to look up, but we also learn a lesson about looking down. When we bring our eyes from heaven to earth, we are reminded about the mission we all have. Where and to whom is God calling you to bring the knowledge of Him?

This week's Grow Pray Study Guide provides an opportunity for a devotional framework to read through the Gospel of Luke. Each day's readings is a chapter from Luke and how the church began and still grows.

As you read each day, I encourage you to use the S.O.A.P. method of devotional reading (Scripture, Observe, Apply, Pray).

Each day offers a Scripture reading. Then a place to Observe what you've read, what's happening, what key statements are made. Follow up as you Apply what you've just read How is God speaking to you through what you've read? Where is Jesus story this week speaking into your life story this day? You might sense a sin to confess, an action to take, a word of thanksgiving or a special need to pray for someone. Take time to Pray to what you have sense God saying to you in this time in His word. In addition, I suggest 2 sentence prayers to end your time with God. Lord, thank you for... Lord, I ask ... Then close, "In Jesus name. Amen."
